Damon Simplifies Logistics

GLOBAL PARTNERS CONFERENCE 2026

Global Together · Growth Beyond

November 6–7, 2026 • Huzhou, China

Welcome

Dear Global Partners,

Welcome!

Welcome to the Damon Technology Global Partners Conference 2026 (GPC2026).

In 2026, the global logistics and supply chain landscape is undergoing rapid transformation. Guided by its “Globalization 2.0” strategy, Damon Technology is moving from business globalization to strategic globalization, evolving from a conveyor and sortation system supplier into a global integrated logistics solutions provider.

With “Global Together • Growth Beyond” as its theme, this conference brings together customers and partners from around the world in Huzhou to explore new paths to growth amid industry transformation, witness Damon’s latest strategic initiatives, product innovations and manufacturing capabilities, and embark together on the next cycle of growth.

“Global Together”: Under the Globalization 2.0 strategy, Damon and its global partners move forward together, aligned in purpose and development, building a localized global business ecosystem and sharing the benefits of global growth.

“Growth Beyond”: Build a solid foundation through stable development while creating new opportunities through breakthrough thinking—strengthening the conveyor, sortation and components businesses while unlocking growth in warehouse automation and the Damon Flash Sorter business, driving high-quality growth from scale expansion to structural upgrading.

This handbook provides all the practical information you need during the conference, including the detailed agenda, transportation and accommodation guide, event arrangements and important notes. We wish you a pleasant and rewarding conference experience!
